# PIRATES

"Full speed ahead for the secret hideout at Skull Harbour!"

said the pirate Captain Roger on board his ship, the Marauder.

Their cargo was gold stolen from the Imperial Armada's Treasure Outpost, but the Armada's newest ship, the Santa Cruz was in pursuit.

"We'll have the gold hidden before they can catch us!" said Captain Roger.

But on the Santa Cruz, Captain Valiant had a plan. "Hoist a flag to signal Soldier's Outpost!" he ordered.

At the outpost, near Skull Harbour, Sergeant Speedy sprang into action.

"A message to follow the Marauder!"

Captain Roger didn't spot Sergeant Speedy landing at Skull Harbour just after the Marauder.

"Down with the skull and crossbones, and up with the Imperial pennant!" said the Sergeant, as he swapped the harbour's flags. "This will signal Santa Cruz. Now scupper the Marauder!"

A load of heavy barrels hung from the harbour crane.

"One slash of my cutlass, and these barrels will topple the mast!" he said, as the load crashed into the Marauder.

It was then that the Santa Cruz appeared on the horizon.

"The harbour's discovered! On the gold into the rowing boat," said Captain Roger. "We can hide on Shipwreck Island!"

Before Captain Valiant could catch them, the pirates escaped. The Santa Cruz cannot rest while Roger and his buccaneers roam the seas!

## PIRATES COMPETITION

Design your own pirate flag and send it into us. You could win first prize of the LEGO Pirate Ship Marauder (6289).

Ten runners-up will each receive a LEGO Pirates Skeleton Island (6254). Send your Pirate flags in an envelope addressed to:

Pirates Competition, The LEGO Club, Wrexham LL13 7TQ  
(Please don't include any other correspondence in your envelope)

Closing date: 31st July 1996

The flag used by most pirates was the skull and crossbones, usually called the 'Jolly Roger'. Some captains, however, had their own flags so that everyone could see whose ship it was. The different flags of some famous pirates are shown in the panel opposite.

# RACING TO THE TOP!

*In an exclusive interview, Bricks 'n' Pieces talks to top British motor racing driver Damon Hill and gets the low-down on what it takes to make a champion.*

**Bricks 'n' Pieces:** How old were you when you first drove a car?

**Damon Hill:** I was only five, but it wasn't in anything as fast as the Williams Renault FW18 I drive now!

**B&P:** How does your car compare with the LEGO Formula 1 racing car?

**DH:** The LEGO car is really cool, it looks similar to my full-size Formula 1 racer!

**B&P:** How fast does your car go?

**DH:** The Williams-Renault has a top speed of over 200 miles per hour - nearly as fast as the LEGO racer!

**B&P:** Wow! That's really fast! What's it like to travel at that speed?

**DH:** Going fast is one of the best feelings in the world. It's fantastic! The G-force\* is like being thrown about on a roller coaster.

**B&P:** Did you always want to be a racing driver?

**DH:** I started out racing motor bikes. The cars didn't come until later.

**B&P:** What's your favourite food?

**DH:** Pasta - lots of it! It's full of carbohydrate which is great for training.

**B&P:** Talking about training - what exercise do you take?

**DH:** Behind the wheel, about three days training a month during the season - which is pretty exhausting! Otherwise, I do something every day - either running, cycling, weights or train on a rowing machine.

**B&P:** What do you do in your spare time?

**DH:** What's spare time? No, seriously, I play golf or make music on my guitar - I've been playing for over 20 years and used to be in a rock band!

**B&P:** Apart from your late father, Graham Hill, which other Formula 1 drivers do you most admire?

**DH:** Without doubt, Fangio, Senna and Prost.

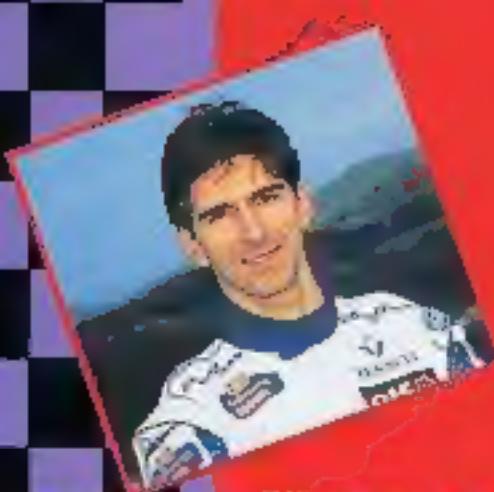

**B&P:** What do you have to do to become a Formula 1 racing driver?

**DH:** The best way into racing is to start go-karting. There are lots of clubs around and you'll soon see how you handle travelling at speed!

**B&P:** What are your plans for the future?

**DH:** I'm launching the Damon Hill Supporters Club this year, and there's a special offer for LEGO Club members who want to join. I also plan to become the next World Champion racing driver!

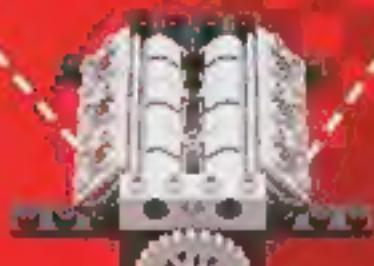

**B&P:** Watch out Michael Schumacher, our hero is after your title!
